

## DELIVERING EXCELLENCE WITH EVERY PROJECT

As the container conversion experts, Ufudu Zambia is trusted to supply, design and convert shipping containers into innovative and modular solutions for businesses and other organisations. We recently completed a container conversion project for the Zambia Civil Aviation Authority in Lusaka, Zambia.

The country's aviation regulator approached us with a set of requirements that included the need for the space management solution to be a water-tight, secure, "off the grid" storage facility that had to be delivered in less than two weeks.

We made certain that all of those specifications and expectations were met and we delivered the solution in the timeframe required, converting a 12m-high cube container into a robust and functional archive/filing container which any business would find useful.

The archive container included the following elements:

- Whirley birds on the roof and louvres in the side-walls for adequate ventilation without compromising the protection that containers offer against the elements.
- Aluminium checkered plate-flooring for a rigid and robust floor surface.
- Open-braced bolted steel shelving.
- A fully-sustainable solar-powered container with solar power procured and installed by our Ufudu Zambia team.
- The container was also wire-brushed, primed and painted inside and out as per the client's specifications.

The area where the container needed to be delivered was difficult to access, with a 2m high wall and roughly 18m between where the crane was standing and where the container needed to stand. But we found a solution and delivered an excellent archive container which will no doubt be of great use to the Zambia Civil Aviation Authority.

## Trust Ufudu Zambia to overcome all challenges on your behalf!

Please find our current retail pricing below, available to all our clients in Zambia. Our UFUDU Container Solutions are available for purchase or rental. We offer fast delivery and professional installation.

## Containers
